Media kit 2024

AMF

The GW is the media brand for the window and door industry, as well as the facade, sun protection, and glass sector. It provides coverage for professionals, executives, and experts in craftsmanship, building component trade, and industry, reporting on all significant developments related to building envelopes and interior glass. The monthly featured topic, constituting approximately 30% of the magazine issue, delves into current trends.

Our website, glaswelt.de, is the leading portal for the industry, with access numbers verified by IVW. Additionally, we engage in various other media channels such as Facebook, newsletters, and platforms like Xing and LinkedIn.

In 2019, we launched the English-language sister portal of glaswelt.de at www.gw-news.eu. The focus of this new international media platform, including newsletters and social media, is on facades and encompasses the topics of windows, glass, and sun protection.

“ GW inspires me in my daily work “

Alexander Nagel,
Managing Director of
Finiglas, Semco Grupp

“ The successful mix of analog and digital channels leads to a contemporary and good penetration within the target groups “

Lisa Modest-Danke,
Manager PR Hörmann

“ It is important to have a professional background of the editors. This is the prerequisite for the courage to address critical openly and directly. “

Prof. Jörn P. Lass,
ift Head of Institution

“ For me, the GW is a gladly read must-read “

Marc Schiffer,
Sales Manager
German Windows

“ GW is the platform that connects and across the board from trade to industry is recognized “

Dr. Jan Schäpers,
Managing Director of the software
provider Hegla-Hanic

“ From a quick overview to background knowledge, due to the GW I find the information that I need “

Sandra Musculus,
Authorized signatory
at the Georg Musculus
GmbH & Co. KG

“ What I appreciate about the GW are the high-quality, well-researched specialist articles. The layout as well as the language are smart and refreshingly unconventional. “

Kerstin Lotter,
Manager profine/Kömmerling
Partner academy

A wealth of experience to help you in practice

Our editors have researched, written, edited and published over 1,100 pages for the GLASWELT readership over the past year. Here, they place particular importance on having a high proportion of exclusives.

Daniel Mund, Chartered Engineer

Editor-in-Chief, responsible for the Window, Door and Prefabricated Element Section Daniel is a carpenter and chartered civil engineer who has constructed houses and blocks of flats as well as commercial properties and has then developed them as a project manager and construction supervisor. He has been working as an editor, delivering technical information and keeping track of significant trends from the industry topics on windows, facades and prefabricated elements since 2001. He has held the Editor-in-Chief role at GLASWELT since 2014 and keeps an eye on the progress of the media portfolio. Simultaneously, Daniel appears as a speaker at various industry conferences and is a sought-after moderator for panel discussions.

Matthias Rehberger, Chartered Engineer

Editor, also responsible for the Glass Section.

Matthias Rehberger is a trained carpenter and chartered engineer (specializing in architecture). He switched to the trade press from this professional background in 2000 and has been working for GLASWELT for around 15 years now. He has been developing innovative new media concepts and has been appearing as a moderator in panel discussions since July 2014, alongside his role as an editor.

Olaf Vögele

Editor and responsible for the Solar Protection System Section

Olaf Vögele is a locksmith, roller shutter and Persian blind installation expert, business economist and expert in roller shutters, gates and sun protection systems. After 15 years working as a Manager in a company in the solar protection system industry, he switched to the trade journalism sector in 2000 and has been working for GLASWELT since 2013. Due to his role as an expert and constant work on boards and in technical committees for unions and the industry, he is always up to date on the latest technology and techniques he is able to transfer his knowledge to GLASWELT readers. Simultaneously, he is a speaker at industry events and a highly requested moderator for podium discussions.

1 Title: GLASWELT - Building envelope and more

2 Brief Characteristics:

GLASWELT is the media brand for windows, facades, solar protection systems and the glass industry and has become a leader in observing trends and spotlighting them for these topics in the building envelope and interiors, in terms of both its editorial content and advertisements.

The editorial team attaches great importance to a particularly high proportion of exclusive and articles tailored to the target group. Our editors all have a technical education and relevant professional experience.

Issue 01/2024

Publication date: 04.01.2024

Advertising deadline: 06.12.2023

Deadline for printing documents: 11.12.2023

Top Topic: Investment goods

The automation of production is advancing further in the glass, window, and sun protection industry to work even more efficiently and economically in the future. To achieve this, we cover the entire process chain from storage through processing to quality assurance and logistics.

In this context, software and logistics systems are gaining increasing importance, including the use of robots, automatic sorting systems, as well as lifting and vacuum systems that support the operating personnel. To optimize the workflow, in addition to the equipment, appropriate control software and advanced quality assurance systems are necessary.

At the same time, the importance of documenting individual products and their real-time tracking in the production process is increasing. In this regard, we also present tracking systems that keep production managers and company owners constantly informed.

Planning assistance: Plant engineering, mechanical engineering, software, production control, quality assurance, scanners, window manufacturing, manual machines, tracking, scanning.

Windows, doors and building components

- ✓ Window manufacturing
- ✓ Manufacturing software
- ✓ Metal windows
- ✓ Aluminum windows
- ✓ Large-area elements
- ✓ Lift-and-slide elements

Glass

- ✓ Bird protection glass
- ✓ Insulated glass production
- ✓ Seals and adhesives
- ✓ Safety glass
- ✓ Bent glasses
- ✓ Designer glasses

Sun protection

- ✓ Roller shutter boxes
- ✓ ZIP systems
- ✓ Outdoor living
- ✓ Gates

Issue 02/2024

Publication date: 09.02.2024

Advertising deadline: 19.01.2024

Deadline for printing documents: 24.01.2024

R+T World Trade Fair for
Roller Shutters, Gates, and Sun Protection
19. – 23.02.2024

Top Topic: R+T Stuttgart

World Leading Trade Fair in Stuttgart

In February 2024, it's that time again – the entire roller shutter, gates, and sun protection industry will come together live at the world's leading trade fair for roller shutters, sun protection, and gates in Stuttgart after six years. The fair serves as a meeting point for the industry, a trend barometer, an innovation platform, and the new hotspot for sustainability.

We cover the topics found at R+T, from exterior blinds to awnings and their control systems, from fire protection doors to security devices. Areas such as burglary protection, Smart Home, and energy efficiency will also be in focus.

Innovations and Trends

We showcase the latest innovations, trends, and products, presenting our readers with everything R+T has to offer and what they should definitely see.

Take advantage of the opportunity to combine this with our bilingual special issue for R+T, the „SONNENSCHUTZWELT“.

Planning assistance: Roller shutters, gates, sun protection, blinds, awnings, drives, Smart Home, Outdoor Living, Sustainability.

Windows, doors and building components

- ✓ Barrier-free: zero thresholds and more
- ✓ Entrance doors
- ✓ Security technology
- ✓ Functional fittings
- ✓ Burglary protection

Glass

- ✓ Garden glass
- ✓ Glass in the interior
- ✓ Glass in the interior
- ✓ Facade glasses in XXL (extra-large)

Sun protection

FENSTERBAU FRONTALE
World Trade Fair for Window,
Door, and Facade Construction
19. – 22.03.2024

**FENSTERBAU
FRONTALE**

Top Topic: FRONTALE

From March 19 to 22, Nürnberg once again hosts FRONTALE, serving as the central trade fair platform for windows, doors, and facades. In our special edition, we highlight where significant innovations can be expected and which novelties will capture attention. From raw materials through manufacturing to installation, the entire value chain will be represented – we compile the complete range of offerings in the magazine.

We provide readers with an essential guide to the innovations showcased in areas such as window systems, window manufacturing, functional fittings, entrance doors, ventilation technology, conservatories, building component accessories, software, installation, sun protection, as well as insulated glass. Additionally, we offer tips on which novelties have the potential for great success.

GLASWELT provides advance coverage of all significant developments and trends!

Planning assistance: Fittings, window systems, installation technology, window manufacturing, conservatories, sun protection, entrance doors, glass, Smart Home, ventilation technology.

Windows, doors and building components

- ✓ Installation technology
- ✓ Hand machines
- ✓ Recycling, Sustainability, Cradle-to-Cradle

Glass

- ✓ Insulated glass made from safety glass
- ✓ Bird protection glasses
- ✓ Vacuum glass
- ✓ Fall protection with glass
- ✓ Quality assurance

Sun protection

- ✓ Awnings
- ✓ Outdoor living
- ✓ External venetian blinds
- ✓ News from R+T (trade fair for roller shutters, doors/gates, and sun protection systems)

Issue 04/2024

Publication date: 11.04.2024

Advertising deadline: 19.03.2024

Deadline for printing documents: 22.03.2024

Top Topic: Corporate Equipment and Mobility

Efficient process workflows require not only state of the art machinery and updated software but also appropriate internal logistics. In this regard, we showcase the latest transport and lifting systems, as well as marking systems and trackers for windows, glass products, and roller shutter elements. We also introduce the corresponding software systems that enable real-time tracking of products in the manufacturing process, including documentation options for individual products.

Furthermore, we present hand machines, lifting technology, and vehicles + vehicle equipment, including electric transporters, to safely transport these products from the workshop to the construction site. We also feature assembly aids and vacuum lifters for secure installations.

Planning assistance: Production, software, automation, quality assurance, shop-floor logistics, tracking, transporter, vehicle equipment, lifting technology, vacuum lifters.

Windows, doors and building components

- ✓ Window sales
- ✓ Showroom
- ✓ Ventilation technology

Glass

- ✓ The glass bathroom
- ✓ Glass processing
- ✓ Logistics
- ✓ ISO manufacturing
- ✓ Seals and adhesives

Sun protection

- ✓ Textile sun protection
- ✓ Sun sails
- ✓ Innovations at the R+T (trade fair for roller shutters, doors/gates, and sun protection systems)
- ✓ News from the Frontale (trade fair for window, door, and facade construction)

Issue 05/2024

Publication date: 08.05.2024

Advertising deadline: 16.04.2024

Deadline for printing documents: 19.04.2024

Top Topic: Smart Home

Building and facade systems, as well as sun protection, must be highly energy-efficient for both new constructions and renovation projects. At the same time, such systems should meet diverse security requirements and ensure high comfort for users, including easy operation. We present current sun protection and facade systems for new construction and renovation, along with the associated glasses for safety, sun protection, and thermal insulation.

In line with this, we introduce Smart Home products for the facade and illustrate how consumers can benefit from Smart Home applications in terms of roller shutters/sun protection, as well as windows and doors.

Furthermore, we showcase interesting projects where exciting Smart Home products are in daily use.

Planning assistance: Fittings, sun protection, entrance doors, Smart Home, ventilation technology.

Windows, doors and building components

- ✓ **entrance doors – special**
- ✓ Pivot doors
- ✓ Wooden windows
- ✓ Wood-metal windows
- ✓ Sustainability
- ✓ Window manufacturing
- ✓ Surface
- ✓ Insect protection

Glass

- ✓ Safety glass
- ✓ Production
- ✓ Automation
- ✓ Spacer
- ✓ Laser processing

Sun protection

- ✓ Standards and guidelines
- ✓ External venetian blinds versus ZIP systems
- ✓ Drives and controls
- ✓ Building automation

Issue 06/2024

Publication date: 06.06.2024

Advertising deadline: 14.05.2024

Deadline for printing documents: 17.05.2024

Top Topic: Building components in Motion

Flaps, Folds, Slides, Lifts – Windows can Rotate and Tilt, Doors can also Slide. Meanwhile, additional types of movements and openings have emerged, all designed to allow sun protection elements, windows, facades, and doors to move elegantly and efficiently in all directions.

We showcase new clever fitting types and variants on facades or in outdoor areas, compare the systems, have experts and hardware specialists speak, and highlight areas where there is still room for mutual learning.

Planning assistance: Functional fittings, sliding elements, folding systems, large-area elements, lift-and-fold shutters

Windows, doors and building components

- ✓ Functional fittings
- ✓ Conservatory
- ✓ Ventilation technology
- ✓ Insect protection

Glass

- ✓ Glass processing
- ✓ Smart glasses
- ✓ Glass parapets
- ✓ Design glasses
- ✓ Glass printing

Sun protection

- ✓ Roller shutters
- ✓ Outdoor Living
- ✓ Awnings
- ✓ Internal sun protection

Issue 07/2024

Publication date: 09.07.2024

Advertising deadline: 18.06.2024

Deadline for printing documents: 21.06.2024

Top Topic: Installation

What are the critical points on the construction site? We provide tips for the installation of windows, doors, glass, and sun protection, showcasing exemplary solutions for the correct professional installation of these building components. Additionally, we shed light on fastening details. For instance, what about installing awnings in the exterior insulation and finish system (EIFS) facade? What requirements are imposed on burglar-resistant window installation? And how do we address the fact that wall systems are becoming increasingly delicate?

We address detailed questions about the joint connection (is „inside tighter than outside“ still valid?) and present ideas for intelligent window and door installation using pre-frame and pre-wall mounting systems. Also on our editorial agenda are powerful tools, lifting technology, and vehicles that impress on the construction site.

Planning assistance: Fastening, sealant, waterproofing, transportation, joint connection, measurement, pre-wall mounting, frame installation

Windows, doors and building components

- ✓ PVC windows
- ✓ Plastic windows
- ✓ Window manufacturing
- ✓ Welding technology
- ✓ CNC technology

Glass

- ✓ Logistics
- ✓ Lifting equipment
- ✓ Transport vehicles
- ✓ ISO manufacturing
- ✓ Fire protection

Sun protection

- ✓ Daylight technology
- ✓ External venetian blinds
- ✓ Large umbrellas
- ✓ Gates

Issue 08/2024

Publication date: 08.08.2024

Advertising deadline: 18.07.2024

Deadline for printing documents: 23.07.2024

Top Topic: Sun protection and Outdoor Living

In 2012, Outdoor Living made its first major appearance at the R+T. What has happened since then? Outdoor Living remains a trending topic in the R+S industry. Both the hospitality sector and end consumers are extending their living spaces outdoors even in less favorable weather conditions. This allows awnings, pergolas, louvered roofs, or glass coverings to showcase their advantages in gardens and on terraces.

The continually diversifying range of offerings is researched by the GLASWELT editorial team for you, ensuring an overview of the most important developments and market innovations.

Planning assistance: External venetian blinds, ZIP systems, Outdoor Living, louvered roofs, pergolas, terrace roofs, awnings, umbrellas, conservatory awnings

Windows, doors and building components

- ✓ Color at the window
- ✓ Films and lamination
- ✓ Coatings
- ✓ Software for trade and sales
- ✓ Functional fittings

Glass

- ✓ Machinery & Production
- ✓ Software
- ✓ High-security glass
- ✓ Insulating glass for renovation and new construction
- ✓ Glass finishing

Sun protection

- ✓ Vacuum Glass
- ✓ Inspection and Maintenance
- ✓ Wall Ducts
- ✓ Roller Shutters
- ✓ Gates

Issue 09/2024

Publication date: 10.09.2024

Advertising deadline: 20.08.2024

Deadline for printing documents: 26.08.2024

Security Essen, Essen

17. – 20.09.24

Top Topic: Security Technology and Fire Protection

Secure building components for secure homes – we demonstrate how the building component dealer can achieve more success by selling security-related features and report on mechanical and electromechanical burglar-resistant fittings for windows, doors, and glass.

We engage in discussions with industry experts about the mood in the security technology market, showcase current developments, and provide an overview of smart solutions.

Furthermore, the focus is on how the roller shutter forms an additional barrier: How long and how effectively do thieves get hindered from breaking in?

Additionally, we report on possibilities and innovations in fire protection through glass products and other building components.

Planning assistance: Fittings, entrance doors, security, burglary protection, retrofitting, fire protection, safety glass, roller shutters

Windows, doors and building components

- ✓ Aluminum windows
- ✓ Metal windows
- ✓ Window manufacturing
- ✓ Recycling and C-to-C (Cradle to Cradle)
- ✓ Sustainability

Glass

- ✓ Vacuum glass
- ✓ Facade glass
- ✓ Glass parapets
- ✓ Laminated glass films
- ✓ Glass in interiors

Sun protection

- ✓ Repairs versus new delivery
- ✓ Sun protection – fixed and movable systems
- ✓ Roller shutters as sun protection?
- ✓ Building automation

Issue 10/2024

Publication date: 15.10.2024
Advertising deadline: 23.09.2024

Deadline for printing documents: 27.09.2024

glasstec, Düsseldorf
22. – 25.10.2024

Top Topic: glasstec

In preparation for glasstec in Düsseldorf, we are already taking a look at new glass products, processing machines, software, and supply products in our trade fair preview. The central theme will be automation: We present the entire process chain from storage through cutting to processing lines, up to quality assurance (scanners), and transportation and assembly. We also showcase new possibilities for glass recycling.

Additionally, we present a new insulated glass line and supply products for ISO production, such as spacers and sealing and adhesive materials. Processing lines and the latest tempered glass furnace technology, as well as equipment for the production of laminated glass and safety glasses (tempered, heat-strengthened, and laminated) for facades and interiors, are also in focus. For installation, we introduce vacuum lifters, transportation and lifting technology, as well as vehicles for glass builders and installers.

Design glasses: We continue to provide an overview of how glass can be refined through laser and printing technology. Additionally, we introduce trends in smart glass and vacuum glass.

Planning assistance: Glass machines, glass processing, software, safety glasses, tempered glass furnaces, laminated glass production, scanners, quality control, insulated glass production, spacers, warm edge, TPS + sealants, smart glass, design glasses, glass logistics, transport vehicles, lifting equipment

Windows, doors and building components

- ✓ Wood windows
- ✓ Wood-aluminum windows
- ✓ Ventilation technology
- ✓ Wood window manufacturing

Glass

- ✓ The glass bathroom
- ✓ Partitions
- ✓ Glass fittings
- ✓ Fall protection with glass

Sun protection

- ✓ Roller shutters – RC2, RC3, or enhanced burglary protection?
- ✓ Re-covering – new awning or new fabric?
- ✓ Glare protection
- ✓ Outdoor Living 365 days a year

Issue 11/2024

Publication date: 12.11.2024

Advertising deadline: 21.10.2024

Deadline for printing documents: 24.10.2024

Top Topic: Sustainability

In the EU member states, more than 3 million residential buildings per year need to undergo energy-efficient renovations by 2033 to achieve a climate-neutral building stock by 2050. We discuss why this will lead to good business for the building envelope in general and window and facade manufacturers in particular.

How can the potential of old window recycling be realized? How can the glass industry achieve genuine glass recycling? What are the criteria for Cradle-to-Cradle certification? We delve into sustainability criteria and, in this issue, highlight the essentials in terms of circular economy and sustainability.

Planning assistance: Wood windows, plastic windows, aluminum windows, surface coating, biodiversity, end-of-life, impregnation, climate goals, Green Deal

Windows, doors and building components

- ✓ **Special on entrance doors**
- ✓ PVC windows
- ✓ Plastic windows
- ✓ Measurement
- ✓ Sliding elements

Glass

- ✓ Logistics & Transport
- ✓ Vacuum lifters
- ✓ Safety glasses (tempered, laminated)
- ✓ Laser processing
- ✓ Quality assurance

Sun protection

- ✓ Roller shutters: plastic, wood, or aluminum?
- ✓ Sun protection: What position makes sense?
- ✓ Drive technology
- ✓ Sun protection above or below the glass roof

Issue 12/2024

Publication date: 10.12.2024

Advertising deadline: 19.11.2024

Deadline for printing documents: 22.11.2024

Top Topic: Facade

The design of building and facade elements plays a central role in both new construction and renovation: we present current constructions and demonstrate how they can be processed and assembled. We also take a look at planning (BIM), facade nodes in 3D printing, and the role that digitization and automation of facades (control systems) play today.

Using concrete examples, we showcase facade projects from commercial construction and explain the role of design in facade decoration with color and materials, including facade glasses (bird protection).

The focus is also on the performance of facade controls and their ability to make building envelopes more energy-efficient and incorporate additional functions (such as Smart Home).

Planning assistance: Facade construction, metal construction, facade systems, facade profiles, 3D printing, facade nodes, facade control, Smart Home, BIM, facade glasses, security technology, recycling aluminum profiles

Windows, doors and building components

- ✓ Fall protection
- ✓ Fittings
- ✓ Fitting technology
- ✓ Window maintenance
- ✓ After-sales business

Glass

- ✓ glastec follow-up report
- ✓ Glass recycling
- ✓ Insulating glass production
- ✓ Sealants and adhesives
- ✓ Laminated glass films

Sun protection

- ✓ Sun and glare protection in the office
- ✓ External venetian blinds as versatile solutions
- ✓ Outdoor living in winter
- ✓ Gates
- ✓ Industry whispers about BAU 2025

Everything about

- › Front door manufacturing (machinery/equipment)
- › Front door installation, assembly
- › Materials, surfaces, design
- › Front door panels
- › Fittings
- › Security technology, burglary protection
- › Access control, Smart Home
- › Insulation, soundproofing

Do you want to showcase your products with an advertisement in this context? Come in! The door is open.

Issue 5: Release date 08.05.24
 Advertising deadline 16.04.24

Issue 11: Release date 12.11.24
 Advertising deadline 21.10.24

Everything about

- › Interior doors
- › Commercial doors
- › Sliding doors
- › Room partition systems
- › Interior and design glass
- › Surfaces
- › Design fittings
- › Functional doors (fire protection, smoke control)

Issue 2: Release date 09.02.24
 Advertising deadline 19.01.24

Issue 6: Release date 06.06.24
 Advertising deadline 14.05.24

Special: Flat roofs (German edition)

Commercial roofs use for self-consumption of electricity and energy efficiency

With photovoltaics, sector coupling and structural measures to reduce energy consumption, companies are making themselves strong for international competition. Flat and slightly inclined roofs generate clean and cost-effective electricity. They play an essential role in the extraction of rainwater and the use of daylight. The active use of commercial roofs reduces operating costs, secures jobs and innovations.

Target groups:	Commercial/trade companies, specialist planners and energy consultants, municipalities
Circulation:	25,000 copies
Distribution print:	Supplement to all subscribers of our magazines in the trade, professional planning and energy consulting
Distribution e-paper:	Additional distribution of the PDF for free download
Publishing date:	November 1, 2024
Closing date:	October 1, 2024

Prices for advertisements/advertorials*:

1/1 page*	4,300 €
1/2 page*	2,200 €
1/3 page	1,575 €
1/4 page	1,150 €
1/8 page	630 €

* Advertorials only 1/1 page or 1/2 page,
Deadline advertorials by May 3, 2024

Range of topics:

- › Mounting systems for solar generators (on- and in-roof systems)
- › Suitable solar modules (glass-foil, glass-glass)
- › Self-consumption through energy storage and e-mobility
- › Electrical refrigeration, air conditioning and heating technology
- › Correctly executed metal attic covers and other roof edge profile
- › Safety systems for installation and maintenance on the roof
- › Drainage systems for flat and slightly inclined roofs
- › Installation and shading of skylights
- › Professional thermal insulation
- › Roof greening, also in combination with photovoltaics

2 Brief description:

glaswelt.de is the leading online portal for professionals in the field of Windows, facades, building elements and sun protection systems. Contents: Daily up-to-the-minute industry news, import-ant downloads, dates and deadlines, link lists, online catalogues, recommendations for industry literature, articles and news archive. Subscribers can download free of charge all articles (since 1997) from the archive in PDF format.

3 Target group:

Professionals in the field of windows, facades, glass and sun protection. These include the building element trade, window and door manufacturers (craft/industrial companies), metal and facade builders, window installation companies as well as companies from the roller shutter and blinds construction. Further target groups are the manufacturers of flat glass products with their finishing products.

Place your message individually and flexibly – you decide „what“, „how much“ and „when“ is sent!

Are you looking for a platform to get your message across individually and flexibly in terms of timing? Our „**Stand-Alone-Newsletter**“ with the look & feel of the editorial newsletter (but without editorial content) brings only your advertising messages and images directly and exclusively to our newsletter subscribers. Due to the exclusivity of your advertising presence, your message reaches the attention is otherwise difficult to achieve.

Technical possibilities

You can set up and design your „**Stand-Alone-Newsletter**“ in a variety of ways. To do this, simply send us your text and image files as well as desired links according to the specifications below.

Individual design options for „Stand-Alone-Newsletter“

Basically, all elements can be placed as often as desired and also at the preferred positions

- ① **Leading image**
560 pixels wide; height variable. Image goes over the entire width of the newsletter.
- ② **Headline „Stand-Alone-Newsletter“**
across the entire width, max. 45 characters
- ③ **Teaser-Text**
max. 350 characters incl. blank characters
- ④ **Fullbanner**
560 pixels wide; height variable;
banner is aligned on the left
- ⑤ **Pure text field extends across the entire width of the newsletter**
Formatting options:
– Bold/italic and underlined text passage
– Bullet points
– Linking of whole sentences or single words possible
- ⑥ **Image + text field, proportionate**
Image: 560 pixels wide, height variable, landscape format, max. 80 KB, JPG
Headline: 35 characters, text: 350 characters;
Image linking possible
- ⑦ **Image + text field, 1/3 to 2/3 ratio**
Image: 560 pixels wide, height variable, landscape format, max. 80 KB, JPG
Headline: 35 characters, text 350 characters;
Image linking possible.

Recipients: 5,296

Price: 2,875.– €, plus value-added tax

Communicate comprehensively and reach your extended target audience. Benefit from attractive combination prices.

Driven by digital connectivity, the trades within the building technology industry are increasingly converging. Accordingly, there is a significant need for information on overlapping topics. With our interconnected building technology portfolio, we address the changing information needs. In our industry titles, users find information on their core topics. Our portal haustec.de provides targeted information with cross-segment content offerings. On a single platform, a comprehensive overview beyond the scope is achieved.

We understand our craft

At Gentner, 'We understand our craft' is more than just a slogan. It is a lived philosophy that runs like a common thread through our entire media offering.

Benefit from our competence and experience! Whether it's a customer magazine, employee newspaper, newsletter, annual report, company chronicle, or microsite – we skillfully bring your idea to life.

Corporate Publishing from a reputable source:

- › High editorial credibility through profound industry knowledge
- › Knowledge transfer between chief editors of leading publications and your internal contacts
- › Profound target group expertise in your markets
- › Wide and focused reach in target audiences
- › A large network of recognized specialists in your industry
- › Extensive online expertise
- › Long-standing experience in print and online
- › Creativity and passion for your task

**We find the fitting solution for your idea!
Contact us!**

Gain a knowledge advantage with our digital company license for your entire organization.
